*"Good To Go Meat Pies combines my love of cooking with my passion for how food is grown and raised."*

Located in the heart of Whatcom County's organic farmland, Good To Go works with many of our local farmers to grow the organic vegetables that make our pasties taste so great. Over the five years since opening we have shifted our meat purchases to farms and co-ops with a focus on natural, humanely raised animals without the use of antibiotics. We proudly list all these farms on our menu. Our commitment to sourcing locally and making delicious food using only the best ingredients has helped us create a loyal following. We look forward to sharing our pasties, the perfect meal wrapped up in our famous buttery crust!
